A.A. 2021/2022

PhD seminar

THE MULTIFACETED FUNCTIONS OF AUTOPHAGY IN ANIMALS AND PLANTS

April 8, 2022

AULA 4MTG VIA Monte Generoso, 71 - Varese

Also live on Microsoft Teams  at the following [LINK](#)

- **14:30-14:45** Prof. Gianluca Tettamanti & Dr. Guido Domingo (Università dell'Insubria)
- **14:45-15:30** Prof. Gian Maria Fimia (Università La Sapienza) *"The role of Ubiquitin in Autophagy: from Signaling to Disease"*
- **15:30-16:00** Prof. Rossella Russo (Università della Calabria) *"Autophagy in neurodegenerative diseases: what do we know about glaucoma?"*
- **16:00-16:30** Prof. Cristina González Estévez (University of Barcelona) *"Role of autophagy during planarian regeneration"*
- **16:30-17:15** Prof. Diane Bassham (Iowa State University) *"Regulation of autophagy during environmental stress in plants"*
- **17.15-17.30** Discussion

In collaboration with:
